TIKO — Functional Requirements

Oct 10, 2026 · @ki

This document lists what TIKO must do, in testable statements, for the MVP and the releases after it. Each requirement links to a user story in the User Stories document.

How to read this document

- **ID:** FR-<area>-<number>, for example FR-HAB-03. Areas: ACC account, HAB habits, GOL goals, TRT treats, ENG engagement, MON money, MND mind, NOT notifications, SYN offline and sync, SET settings and data.
- **Wording:** "must" is mandatory, "should" is expected unless time runs out, "may" is optional.
- **Priority:** P0 ships in the MVP, P1 ships in the MVP if time allows, P2 is V1 or later.
- **Story:** the user story ID the requirement serves (for example B1).
- **Out of scope for the MVP:** native apps, bank linking, social features, automatic step import, coach programmes.
- Non-functional targets (speed, security, accessibility) are in the PRD and the Tech Stack; this document covers behaviour.

1. Account and onboarding

ID	Requirement	Priority	Story
FR-ACC-01	The app must let a new user start in guest mode without any signup, storing data on the device.	P0	A1
FR-ACC-02	The app must offer sign-in by email magic link and by Google.	P0	A3
FR-ACC-03	When a guest signs in, the app must merge the device data into the account without duplicates.	P0	A3
FR-ACC-04	A magic link must expire after 15 minutes and work only once.	P0	A3

ID	Requirement	Priority	Story
FR-ACC-05	Onboarding must let the user pick 3 starter habits, one starter goal and its treat, set a reminder time and tone, and finish in at most 5 screens.	P0	A2
FR-ACC-06	Notification permission must be requested only after the user sets a reminder time, never on first load.	P0	A2
FR-ACC-07	After the first completed goal, the app should prompt guests to create an account, once.	P1	A1
FR-ACC-08	The user must be able to edit their name, time zone and currency in Me.	P1	A4

2. Habits

ID	Requirement	Priority	Story
FR-HAB-01	The app must support four tracking modes: tap counter, check-off, timer and manual number entry.	P0	B1, B3
FR-HAB-02	A habit must have a name, icon, tracking mode, unit, target, type (build or limit) and cadence (daily or weekly total).	P0	B4
FR-HAB-03	A tap on a habit card must update the card immediately and store the log; the user must be able to undo within 10 seconds.	P0	B1
FR-HAB-04	The app must provide the 7 core habits (water, gym, steps, deep work, meditation, journal, reading) with default targets.	P0	B1
FR-HAB-05	The user must be able to create, rename, archive and reorder habits; archived habits must keep their history.	P0	B4
FR-HAB-06	The Today screen must show at most 7 cards before scrolling and sort them by the user's usual logging time.	P1	B1

ID	Requirement	Priority	Story
FR-HAB-07	Completed habit cards must shrink and move to the bottom of Today.	P1	B1
FR-HAB-08	A timer habit must keep its elapsed time if the tab closes and save a log when stopped.	P1	B2
FR-HAB-09	The user must be able to pause a habit for a chosen period; paused habits must not appear on Today or affect streaks.	P1	B5
FR-HAB-10	The user must be able to edit or delete logs from the previous 7 days; related progress and goals must recalculate.	P1	B6
FR-HAB-11	A limit habit must show remaining allowance instead of progress toward a target.	P1	B4
FR-HAB-12	The app should suggest a target increase of about 10% after 4 weeks of consistently meeting a target.	P2	C6

3. Goals and treats

ID	Requirement	Priority	Story
FR-GOL-01	The app must support six goal types: daily target, streak, weekly total, count, limit and savings.	P0	C1
FR-GOL-02	The app must provide at least 10 goal templates and let the user build a goal with what, how much and by when.	P0	C1
FR-GOL-03	A user must have at most 5 active goals; the app must explain the limit when it is reached.	P0	C1
FR-GOL-04	After every log, the goal engine must recompute progress for all active goals that use that habit or category.	P0	C3
FR-GOL-05	A goal must show a progress ring on Today and on its own page.	P0	C3

ID	Requirement	Priority	Story
FR-GOL-06	The app must show one nudge when a goal passes 50% and one at 90%.	P0	C3
FR-GOL-07	When a goal's target is met, the app must mark it complete and show the celebration screen immediately.	P0	C4
FR-GOL-08	A goal's deadline passing without completion must not mark it as failed; the app must offer extend, shrink or restart.	P0	C5
FR-GOL-09	The user must be able to combine several habits into one bundle goal that completes when every part is met.	P2	C1
FR-GOL-10	After a goal is claimed, the app should offer to repeat it or raise its target by about 10%.	P1	C6
FR-TRT-01	A treat must have a name, optional photo, optional cost and a category (free or paid).	P0	C2
FR-TRT-02	The app must provide 30 starter treats sorted by cost and let the user write their own.	P0	C2
FR-TRT-03	A goal may exist without a treat; a treat can be added later.	P0	C2
FR-TRT-04	The celebration screen must show the treat and two actions: Claim and Later.	P0	C4
FR-TRT-05	Claim must record the claim date and add the treat to the Trophy shelf; Later must keep the treat on the Goals tab.	P0	C4
FR-TRT-06	A paid treat must draw from a separate treat budget and not count as ordinary spending.	P1	D5
FR-TRT-07	The Trophy shelf must list claimed treats with date and photo, newest first.	P1	C7

4. Engagement

ID	Requirement	Priority	Story
FR-ENG-01	A streak must continue through one missed day in any 7-day window; two consecutive missed days must break it.	P0	F1
FR-ENG-02	A forgiven day must show as a half-filled dot in the streak chain.	P1	F1
FR-ENG-03	The user must earn one streak-freeze token every 14 days and may spend it to protect one more missed day.	P2	F1
FR-ENG-04	The app must award XP per log (water glass 1, workout 20, journal 15, mood check-in 5) and never remove XP.	P1	F3
FR-ENG-05	The app must show a named level that rises as XP grows.	P1	F3
FR-ENG-06	The app must award the badges listed in the PRD (about 25 at V1) and show them in Me.	P2	F3
FR-ENG-07	The daily ring on Today must fill as habits complete; closing it must show a short celebration.	P1	F3
FR-ENG-08	The app must not show public leaderboards or negative scores.	P0	F3
FR-ENG-09	The user must be able to hide streak numbers.	P1	E5
FR-ENG-10	The app must show a Sunday recap with days logged, goals hit, treats earned, money saved and mood trend.	P2	F4

5. Money

ID	Requirement	Priority	Story
FR-MON-01	The app must let the user log an expense by entering an amount and choosing one category; date must default to today.	P0	D1
FR-MON-02	Categories must be Food, Transport, Bills, Shopping, Fun, Health, Education and Other; the user may add custom categories.	P0	D1
FR-MON-03	Amounts must be stored as integers in the smallest currency unit and shown in the user's currency (default INR).	P0	D1
FR-MON-04	After saving an expense, the app must show an Undo option for 10 seconds.	P0	D1
FR-MON-05	The user must be able to set one monthly budget and, optionally, a limit per category.	P0	D2
FR-MON-06	The app must show "safe to spend today" as remaining monthly budget divided by days left in the month, never below zero.	P0	D2
FR-MON-07	When a category reaches 80% of its limit, the app must show one calm warning; entries must never be blocked.	P1	D4
FR-MON-08	The app must offer "same as last time" for a repeated amount and category.	P1	D3
FR-MON-09	The user must be able to define recurring expenses (rent, subscriptions) that post automatically on their date.	P1	D3
FR-MON-10	The user must be able to log income entries; income must not change the monthly budget unless the user chooses.	P2	D2
FR-MON-11	A limit goal (for example under Rs 500 a day for 5 days) must evaluate daily spending against its cap.	P1	D5

ID	Requirement	Priority	Story
FR-MON-12	A savings goal must have a name, target amount, optional date and manual contributions; treats may be set at 25%, 50%, 75% and 100%.	P2	D6
FR-MON-13	The app must not connect to bank accounts or move money.	P0	D6
FR-MON-14	The app should show a weekly spending insight: spent vs budget, top 3 categories, biggest expense and one suggestion.	P2	D7

6. Mind

ID	Requirement	Priority	Story
FR-MND-01	The app must let the user record a mood on a 5-point face scale and an energy level (low, medium, high) in two taps.	P0	E1
FR-MND-02	A mood entry may include up to 3 tags and a one-line note.	P0	E1
FR-MND-03	The app must allow one mood entry per check-in time and keep a history of entries.	P1	E1
FR-MND-04	The journal must auto-save while typing and store the body encrypted.	P0	E2
FR-MND-05	Journal entries must be private to the user, searchable by the user, and never used for analytics, ads or sharing.	P0	E2
FR-MND-06	The app should show one writing prompt a day and offer a three-line gratitude mode.	P1	E3
FR-MND-07	The app should provide a box-breathing exercise of 1 to 5 minutes that respects reduced-motion settings.	P1	E4

ID	Requirement	Priority	Story
FR-MND-08	After 3 consecutive low-mood days, the app must soften goal targets, hide streak counters and show one support card with helpline information for the user's country; it must not diagnose.	P1	E5
FR-MND-09	If a journal entry contains words suggesting self-harm, the app must show the same support card calmly, without locking the user out.	P1	E5
FR-MND-10	The support card, once dismissed, must not reappear for 7 days unless the user logs another low mood.	P1	E5
FR-MND-11	The Mind tab must show a mood calendar heatmap; tapping a day must open that day's entry.	P1	E6
FR-MND-12	The app may show mood-habit-spending correlations after 14 or more days of data, worded as observations.	P2	E7
FR-MND-13	Mind rewards must be given for showing up (check-ins, entries), never for a particular mood.	P0	E1
FR-MND-14	Onboarding and Settings must state that TIKO is a self-care tool, not therapy or medical advice.	P0	E5

7. Notifications

ID	Requirement	Priority	Story
FR-NOT-01	The user must be able to set a daily reminder time and a tone (gentle, playful or minimal).	P0	F2
FR-NOT-02	The app must send at most 2 notifications a day and none during quiet hours (default 10 pm to 8 am).	P0	F2
FR-NOT-03	The app must send web push where permitted and email as a fallback; the user must be able to turn each off.	P0	F2

ID	Requirement	Priority	Story
FR-NOT-04	After 3 days without a log, the app must send one friendly re-engagement message and then none for 7 days.	P1	F2
FR-NOT-05	The app should send the reminder about 30 minutes before the user's usual logging time once enough data exists.	P2	F2
FR-NOT-06	Notification text must never shame the user or include journal text or exact money amounts.	P0	F2

8. Offline and sync

ID	Requirement	Priority	Story
FR-SYN-01	The app must be installable to the home screen and open without a connection.	P0	F5
FR-SYN-02	Logging habits, expenses and mood must work offline; entries must be stored on the device first.	P0	F5
FR-SYN-03	The app must sync queued entries automatically when a connection returns and show a "Saved on this device" badge until then.	P0	F5
FR-SYN-04	When the same entry is edited on two devices, the latest edit must win.	P0	F5
FR-SYN-05	A goal completed offline must show its celebration immediately and be confirmed after sync.	P1	F5
FR-SYN-06	A failed sync must retry and never delete data on the device.	P0	F5

9. Settings and data

ID	Requirement	Priority	Story
FR-SET-01	The user must be able to choose light, dark or device theme.	P1	F6
FR-SET-02	The user must be able to export all their data as CSV and JSON.	P1	A4
FR-SET-03	The user must be able to delete their account; all data must be removed within 30 days after confirmation.	P1	A4
FR-SET-04	The user must be able to change reminder, quiet-hour and streak-display settings at any time.	P1	F2
FR-SET-05	The app must provide a help and privacy page explaining what data TIKO keeps.	P1	A4
FR-SET-06	The Plus plan must unlock unlimited habits and goals, savings goals, insights, health-app import, custom treat photos, export and themes.	P2	n/a

Business rules

Rule	Statement
Today boundary	A "day" runs from midnight to midnight in the user's time zone.
Free plan limits	Up to 5 habits and 2 active goals.
Goal limit	At most 5 active goals for any plan.
Streak	One missed day in any 7 days is forgiven; two in a row break it.
Money	Safe to spend today = remaining monthly budget divided by days left; paid treats use a separate treat budget.

Rule	Statement
Tone	Copy never uses words such as failed, lazy or behind.
Mind data	Never used for ads, never shared; included in export and deletion.

Traceability and open questions

Every P0 and P1 requirement above maps to a story ID in the User Stories document; a requirement without a story should be removed or given one. FR-SET-06 has no story because Plus plan scope is still being decided.

- [ ] Confirm whether the free plan limit should be 5 habits and 2 goals, or higher
- [ ] Choose the list of countries and helplines for the support card
- [ ] Decide whether recurring expenses (FR-MON-09) belong in the MVP or V1
- [ ] Write acceptance tests for every P0 requirement before development starts
